Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest the use of an image pickup apparatus wherein the outputted signals from an image sensor are delayed and sent to a preprocessing circuit containing a plurality of adders which compile a sum of the delayed signals and a one-half multiplier which halves the sum compiled by the plurality of adders. The prior art further does not teach outputting from the preprocessing circuit the sum halved by the multiplier to a brightness processing circuit and outputting to a chromatic processing circuit the delayed signals as synthesized signals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
